ENV1.2 Quality level: 4 of 4

ENV1.3.1 Quality Level: No Requirements

ENV1.3.2 Quality Level (Secondary raw materials): No Requirements

PRODUCT DATA

Systems with only vertical movement:

- Parklift 405
- Parklift 450

Product Type: Other steel construction profiles

The product is used indoors: Yes

Which corrosivity category according to DIN EN ISO 12944-2 does the application of the product fall under?: C3

The product has or is a corrosion protection coating for metal: Yes

The product is installed as a load-bearing component or applied to load-bearing components.: Yes

The product is free of SVHC (< 0.1%).: Yes

VOC content (g/m²): 0

The product (usually) makes a relevant contribution to the total construction costs of a project (>0.5%): No

These results were generated using EPEA's Product Compliance Assessment (ProCA) service. This offers an independent, objective and tamper-proof assessment of products based on their product characteristics. The product data above was provided by Wöhr Autoparksysteme GmbH as a basis for the assessment.
